

Speeding Policy

You should always drive at a speed appropriate to the conditions. You must also observe speed restrictions relevant to your vehicle configuration.

Do not speed to meet timeslots or designated arrival times.

When travelling on unfamiliar roads, you should adjust the speed of the vehicle such that you are able to stop suddenly in the case of deviations, culverts and other hazards.

You should always follow posted signs that provide a guide to the condition and characteristics of the road.

Always reduce your speed in wet conditions – drive slowly, even if this results in delays to delivery and pick up schedules.

You should descend hills at sign posted truck speed and gear instructions, or in the gear you climbed the hill in.

Always observe the road work speed limits.

You should take corners at or below the speed indicated on the advisory sign.

Plan your trip well ahead to give you more reaction time and plenty of time to arrive safely.

Always observe the speed limit in depots, parking lots, rest areas, customer's premises and work sites.

If you have been found travelling in excess of the applicable speed you will face disciplinary action.

All vehicles have been fitted with a speed limiter to ensure that the vehicle does not exceed the maximum permitted speed of 100 km/h. **Anybody found tampering with a speed limiting device will have their employment terminated immediately.**
